

Designed Conveyor Systems, MI is now Blesco, Inc.

Only the Name has Changed at DCS

October 2007 Issue

Designed Conveyor Systems, MI is pleased to announce that we will be going forward under the name Blesco, Inc. as of September 1, 2007, the first day of our 16th fiscal year.

The name is the only thing changing about the company. We have not been bought or sold nor have we bought or sold any other company. Our ownership, location, people, systems, service, and partnerships all remain the same.

Blesco, Inc. capabilities have outgrown the Designed Conveyor Systems, MI name. As a systems integrator within the material handling industry Blesco has capabilities including: design engineering, project management, control systems, custom software development, robotic integration, custom manufacturing and installation.

Along with the name change Blesco has launched a new website: www.blesco.com

President Rob Scott christening the new company sign.

Robotics and Automation 3rd Annual Show

On September 11, 2007 over 300 people attended the 2007 Robotics and Automation Show located at the Blesco headquarters in Grand Rapids, MI. Attendees visited the 27 booths set up by our local vendors and engaged in the educational seminars occurring every 30 minutes throughout the day. The speakers included executives from Haworth, Walters Gardens, Boscov's Department Store, Fanuc Robotics and many more. Attendees also viewed the Blesco Speedway from the environmentally progressive beer deck with its robotic depalletizing operation, Intralox Singulator, Blesco Belt Turns and Powered Roller Conveyor.

Also running was a demo of one of Haworth's new AGV's with an executive from the company to share Haworth's Applications as well as answer questions visitors had.

*The date has been set! Next year's show is
September 9, 2008.*

Customer Appreciation

After the Robotics and Automation Show on September 11, 2007, Blesco customers and employees headed downtown Grand Rapids to the B.O.B. for a recognition dinner and awards ceremony in honor of the top customers of the year. The customers that were recognized for their partnership for the 2007 fiscal year were Boscov's Department Stores, RedEnvelope, Walters Gardens and McMaster Carr Supply Company. Also recognized was Frank Davis of Wolverine World Wide for his many years of partnership with DCS.
